Arthur:

A brief note to thank you for the kind invitation and gracious hospitality at the Chicago Council as well as the Committee. I must say I enjoyed the privilege and opportunity to meet so many distinguished people.

As an individual I am delighted that people throughout the country like you are interested in our foreign affairs and take the time and commit the energy to understand what is happening. I hope that my talk was helpful in giving you a different perspective from which to view the world.

Again my thanks for your care and attention. Wish you and the Council and the Committee my very best.

Sincerely,

John N. McMahon
